Subject: TPG ADSL2+ with Home Phone Application UN

To

Dear,

Thank you for choosing TPG Internet as your preferred Internet and Home Phone Service Provider.

We regret to inform you that we are unable to proceed with your ADSL2+ with Home Phone application.

The address that you have indicated for installation to take place has been unsuccessful in qualifying by Telstra for the following reason: BUFFERED.

This means there is not enough Ports in your Exchange to supply the ADSL2+ with Home Phone service.

Please be advised that your registration is now closed.

We apologise for any inconvenience caused and thank you for choosing TPG.

Kind Regards,
